

Remarks:

Claims 55, 62, 120, and 147 are currently pending. All claims are in independent format and have been amended to be limited to the DNA sequence of SEQ ID No. 14. Claim 55 claims a plasmid, claim 62 claims a vector, claim 120 claims an isolated DNA sequence, and claim 147 claims a transformed cell line. By limiting the claims to the specific sequence of SEQ ID No. 14, all rejections based on 35 U.S.C. 112 have been overcome. Additionally, all claims that were rejected for prior art reasons have been canceled. Accordingly, because the sequence of SEQ ID No. 14 is novel, all claims included herein should be allowable.

In light of the foregoing, the present application should now be in condition for allowance and a Notice of Allowance is courteously solicited.

Any additional fee due in connection with this amendment should be applied against Deposit Account 50-2790.

Respectfully submitted,

By
